Research Fellow (Transportation Systems)

Faculty / Portfolio: Faculty of Engineering, Department of Civil Engineering  
Location: SEU-Monash Suzhou Joint Graduate School, Suzhou China / Monash University Clayton  
Employment Type: Full-time Research Fellow Postdoctoral  
Duration: Two years (with possible extension)

- Brilliant without boundaries  
- Innovative and creative environment  
- Undertake teaching and research position in China

If you're after a brilliant career, Monash University can help make it happen. With leading academics and world-class resources, combined with a ranking in the top 100 universities worldwide, we offer all you need to build a brighter future.

The Opportunity

The Postdoctoral Research Fellow will be required to do: contribute to the research in transportation systems at the Southeast University and Monash University Joint Graduate School in Suzhou China.

Opportunities to support teaching in the Masters of Transport Systems will also be available, including tutoring, marking and supervision of research projects.

The Postdoctoral Research Fellow will spend 1.5 years in China and undertake research activity aligned with one of the Institute of Transport Studies' existing research strengths: travel demand, transport and traffic planning, management, and operations. The Postdoctoral Research Fellow will work closely with the Monash Faculty members in Suzhou for six months of the year. Opportunities for co-supervision of postgraduate students can be expected. The Postdoctoral Research Fellow will also have the opportunity to visit the Department of Civil Engineering at Monash University Clayton campus for one-half year.

The successful applicant will have:

- An undergraduate and doctoral qualification and significant experience in the relevant discipline area.
- An established record of outstanding transportation related research as evidenced by publication record.
- Good teamwork skills and leadership in conducting research projects.
- Demonstrated links with relevant external organisations and the profession.

Appointment will be made at a level appropriate to the successful applicant's qualifications, experience and in accordance with classification standards for each level.

If you believe you fit the requirements for this role we welcome your application. More details about the transport group in Monash University can be found at: http://www.eng.monash.edu.au/civil/research/centres/its/
