

Seminars on Writing the Thesis Semester 1, 2009

These seminars are for all postgraduate students in Engineering.

Seminar 1 provides a general overview of how to write a thesis.

Seminar 2 particularly focuses on how to write a thesis by publications.

You must attend Seminar 1 if you wish to attend Seminar 2.

In the seminars, we examine the structure of a conventional thesis and a thesis-by-publications. We also examine the purpose, argument and linguistic features of each section of a thesis, and analyse a number of good sample theses.
